

Best-Value Used Shantui SE200 20-Ton Compact Excavator with Reliable Cummins Engine

Specifications :

Price	Contact us
Place of Origin	China
Min.Order Quantity	1
Payment Terms	OEM?ODM?OBM
Supply Ability	1000
Delivery Detail	one month

Detail Introduction :

Parameter	Specification Details
Model & Brand	Shantui SE200 Compact Excavator (Pre-Owned)
Operating Weight	20,500 kg
Engine Output	Cummins Diesel Engine 124 kW (166 HP) @ 2000 rpm

Standard Bucket Capacity	0.9 m ³ (Optional: 1.0 / 1.1 m ³ Earthwork Bucket)
Fuel Tank Capacity	320 Liters
Hydraulic Tank Capacity	240 Liters
Track Shoe Width	600 mm Standard Steel Track Plates
Key Advantage	High structural durability, excellent fuel tolerance

The Shantui SE200 features factory-reinforced boom and arm assemblies, paired with a high-rigidity lower track frame designed to absorb ground impacts during heavy excavation. Its 124 kW Cummins engine operates efficiently at 2000 rpm, delivering ample hydraulic breakout force for tough clay, gravel, and light quarry work. With a generous 320-liter fuel tank and a 240-liter hydraulic oil capacity, operators can run extended double shifts without interruption. Standardized with 600 mm triple-grouser steel track plates, the undercarriage maintains excellent traction across unpaved job sites. Every used SE200 unit undergoes complete workshop hydraulic pressure diagnostics, track shoe pin inspections, and engine compression testing before containerized export.

Unique Product Highlights

Proven Cummins Powerplant: Delivers 124 kW (166 HP) of direct-injection power, offering exceptional tolerance against varying fuel quality commonly found in overseas export markets.

Shantui Heavy Structural Heritage: Built with extra-thick steel plates on key stress points of the boom, arm, and chassis frame for long working life.

High Hydraulic Thermal Capacity: Features a massive 240-liter hydraulic tank and high-capacity radiator to ensure smooth continuous operation in hot climates.

Abundant Spare Parts Ecosystem: Shares a widely recognized component structure, ensuring replacement filters, track links, and seals are readily available globally.

Product Applications

Commercial Earthmoving & Foundation Work: Site clearing, mass soil excavation, and filling for commercial building pads.

Aggregate Handling & Light Quarry Operations: Loading crushed stone, sand, and gravel into high-side haul trucks.

Agricultural Land Reclamation: Clearing deep roots, terracing sloped hillsides, and constructing large irrigation channels.

Why Choose Pre-Owned Shantui Machinery

Exceptional ROI: Acquire a heavy 20-ton class compact excavator at a fraction of new equipment retail prices, drastically cutting project setup costs.

Uncompromising Pre-Export Servicing: Every unit is fully cleaned, fluid-serviced, and load-tested under real digging stress before shipping.

Low Depreciation Loss: Pre-owned machinery avoids steep first-year depreciation while retaining high second-hand market liquidity.
