

Used Late-2020 Doosan DX60 6-Ton Compact Excavator – Original Paint with 6000 Working Hours

Specifications :

Price	¥78,000
Place of Origin	China
Min.Order Quantity	1
Payment Terms	OEM?ODM?OBM
Supply Ability	1000
Delivery Detail	one month

Detail Introduction :

The Doosan DX60 compact excavator is powered by a smooth, high-torque diesel engine paired with an advanced main hydraulic pump and control valve system, enabling responsive joystick operation and precise bucket positioning. Weighing approximately 6,000 kg, its reinforced undercarriage and heavy-duty steel rubber/track shoe assembly ensure solid traction and low ground pressure on soft dirt or paved surfaces. The enclosed cab is designed with operator comfort in mind, featuring high-output air conditioning, clear digital monitoring gauges, low interior acoustic levels, and expansive glass windows for full visibility around the machine. Thoroughly workshop-inspected, performance-tested, and fully documented, this late-2020 pre-owned excavator is ready to go straight to work without requiring any costly repairs or repainting.

Unique Product Highlights

Late-2020 Production Model: A modern, young-age machine that offers up-to-date hydraulic control technology, optimized fuel consumption, and long remaining service life.

100% Original Factory Condition: Preserved in its original factory paint with zero structural repainting, giving overseas buyers complete transparency and confidence in its true structural history.

Verified 6,000 Working Hours: Low, genuine meter hours reflecting careful routine maintenance and light operational stress on hydraulic seals, valves, and engine components.

Agile 6-Ton Utility Design: Compact dimensions allow easy transportation on standard flatbed trailers and effortless operation in confined urban or agricultural settings.

All-Weather Operator Comfort: Sealed, climate-controlled cabin with low vibration dampening keeps operators working productively through long working shifts.

Product Applications

Municipal Utility & Urban Trenching: Digging narrow utility lines, water pipe trenches, and cable channels along tight city streets.

Agricultural & Farm Land Prep: Land clearing, clearing drainage ditches, building farm access roads, and installing irrigation systems.

Residential Foundation & Landscaping: Excavating house footings, grading residential yards, installing swimming pools, and planting large trees.

Light Demolition & Site Clearing: Breaking up small concrete pads, clearing brush, and loading debris onto medium haul trucks.

Why Choose Our Equipment

Comprehensive Pre-Export Inspection: Every machine undergoes rigorous mechanical checks, including hydraulic main pump pressure verification, engine compression audits, and travel motor testing.

Authentic & Honest Presentation: What you see in the photos is the exact, unpainted, original condition of the machine—no hidden welds or cosmetic touch-ups.

Exceptional Return on Investment: Secure a clean, late-model 6-ton compact excavator at a fraction of brand-new machine costs, maximizing your project profit margins.

Complete Export Documentation & Support: Complete export paperwork, transparent customs compliance, and professional container loading to ensure safe transit to your destination port.
