

Used Electric Wheel Loader | Low Noise Battery Wheel Loader for Warehouse & Farm Operations

Specifications :

Price	Contact us
Place of Origin	China
Min.Order Quantity	1
Payment Terms	OEM?ODM?OBM
Supply Ability	1000
Delivery Detail	one month

Detail Introduction :

Model	Rated Load	Rated Bucket Capacity	Dump Height	Battery Capacity
E30	1650 kg	0.6 ~ 1.0 m ³	3600 mm	63.3 kWh
E36	1800 kg	0.6 ~ 1.0 m ³	3600 mm	63.3 kWh

Our pre-owned Medium Electric Wheel Loaders feature an articulated steel chassis, responsive hydraulic controls, and a high-capacity 63.3 kWh battery energy storage system. Designed to bridge light utility tasks and heavy stockpile loading, these machines handle bucket volumes from 0.6 m³ to 1.0 m³ with a dump clearance reach of 3600 mm. The electric motor architecture eliminates high-frequency diesel engine noise and toxic exhaust, allowing operators to move seamlessly between outdoor yards, covered farm sheds, and indoor logistics halls. Each unit undergoes multi-point battery cell diagnostics, motor controller testing, and structural stress inspection before shipment.

Unique Product Highlights

Low Noise & Zero Fumes: Quiet electric drivetrain allows comfortable operation inside enclosed warehouses and livestock barns without disturbing animals or workers.

Extended Battery Runtime: Equipped with an upgraded 63.3 kWh energy pack engineered for sustained multi-hour material handling shifts.

High Dumping Reach (3600 mm): Reaches elevated truck beds, grain hoppers, and high storage bays with ease.

Versatile Payload Capacity: Reliable 1650 kg to 1800 kg rated load range provides balanced breakout force and lifting stability.

Reduced Operating & Maintenance Costs: Eliminates fuel expenses, engine oil filters, and complex engine maintenance routines over the machine's life cycle.

Product Applications

Agricultural & Livestock Facilities: Loading feed, clearing manure, and moving bulk grain totes inside enclosed animal housing and dairy farms.

Warehouse & Logistics Centers: Moving palletized goods, bulk raw materials, and packaging supplies across indoor bays and outdoor loading docks.

Organic Fertilizer & Compost Plants: Shoveling, mixing, and loading organic compost and soil blends in covered processing sheds.

Municipal & Commercial Property Upkeep: Clearing snow, moving landscape gravel, and handling site waste in noise-restricted commercial zones.

Why Choose Used Equipment

Exceptional Value for Money: Access modern battery-electric wheel loader technology at a significantly lower capital cost than new models.

Lower Total Cost of Ownership: Combining a discounted purchase price with zero diesel fuel expense yields an incredibly fast return on investment.

Rigorous Quality Inspections: Every pre-owned loader is thoroughly tested for battery cell health, hydraulic pressure, and mechanical integrity before delivery.

Immediate Job-Site Readiness: Serviced, reconditioned, and fully functional units ready for quick deployment to your job site.
