

Used Compact Electric Forklift - Lithium Battery Counterbalanced Forklift for Warehouse & Indoor Handling

Specifications :

Price	Contact us
Place of Origin	China
Min.Order Quantity	1
Payment Terms	OEM?ODM?OBM
Supply Ability	1000
Delivery Detail	one month

Detail Introduction :

Model	Rated Lifting Capacity	Load Center Distance	Min. Turning Radius	Power Type
A05	500 kg	400 mm	1285 mm	Lithium Battery
A10	1000 kg	400 mm	1450 mm	Lithium Battery
A15	1500 kg	500 mm	1800 mm	Lithium Battery
A18	1800 kg	500 mm	1800 mm	Lithium Battery
A18S	1800 kg	500 mm	1760 mm	Lithium Battery
A30	3000 kg	500 mm	2330 mm	Lithium Battery
A35	3500 kg	500 mm	2330 mm	Lithium Battery
A50	5000 kg	500 mm	2740 mm	Lithium Battery

Our pre-owned A-Series Compact Electric Counterbalanced Forklifts feature high-density lithium-ion battery technology, responsive electric steering, and short wheelbases designed for maximum indoor maneuverability. Ranging from ultra-compact 500 kg units up to heavy-duty 5000 kg capacity models, these forklifts boast exceptionally tight turning radii (as low as 1285 mm on the A05), enabling effortless turns inside cramped container spaces and narrow storage racks. Equipped with counterbalanced chassis stability and smooth hydraulic mast controls, each unit delivers steady lifting power and rapid acceleration. Every used forklift undergoes strict electrical insulation checks, battery state-of-health diagnostics, and load-stress testing before shipping.

Unique Product Highlights

Compact Footprint & Superior Maneuverability: Short wheelbase design with turning radii starting at just 1285 mm facilitates easy turning in tight warehouse aisles and loading bays.

Maintenance-Free Lithium Power: Fast-charging lithium-ion battery technology eliminates acid topping, battery watering, and daily battery maintenance.

Zero Fumes & Whisper-Quiet Drive: Pure electric operation ensures clean air quality in food-grade, pharmaceutical, and climate-controlled storage environments.

Ergonomic Operator Comfort: Multi-functional digital dashboard, responsive controls, and clear-view mast visibility reduce operator fatigue during long shifts.

Wide Capacity Spectrum: Extensive selection from 0.5t up to 5.0t payload capacities satisfies diverse indoor handling requirements.

Product Applications

Indoor Logistics & Distribution Centers: Moving palletized goods, loading container trucks, and stocking pallet racks in narrow aisles.

Food & Beverage Warehouses: Transporting organic produce and packaged goods inside clean, temperature-controlled cold storage without exhaust contamination.

Pharmaceutical & Chemical Storage: Handling raw chemical totes and medical supplies where zero emissions and low noise are mandatory.

Manufacturing & E-Commerce Fulfillment: Transferring assembly components, box packaging, and finished products between production lines.

Why Choose Used Equipment

Maximum Capital Efficiency: Upgrade your warehouse handling fleet with advanced lithium-electric tech at a significantly lower upfront cost.

Rapid Return on Investment: Low purchase price paired with zero fuel expenditure and minimal motor maintenance accelerates overall fleet profitability.

Pre-Inspected Reliability: Every pre-owned forklift undergoes comprehensive battery cell diagnostics, hydraulic pressure testing, and brake system servicing.

Immediate Availability: Avoid long factory lead times and get job-ready equipment delivered straight to your facility.
