

Used Electric Pallet Truck - Compact Lithium Battery Hand Pallet Jack for Warehouse Material Transport

Specifications :

Price	Contact us
Place of Origin	China
Min.Order Quantity	1
Payment Terms	OEM?ODM?OBM
Supply Ability	1000
Delivery Detail	one month

Detail Introduction :

Model	Category / Type	Rated Capacity	Fork Dimensions / Load Center	Min. Turning Radius	Power Type
CBD20	Electric Pallet Truck	2000 kg	680 mm (Load Center)	1230 mm	Lithium Battery
CBY30	Manual Hand Pallet Truck	3000 kg	550/685 mm (Width) / 1150/1220 mm (Length)	Manual Control	Manual Operation

Our pre-owned pallet trucks combine a reinforced high-tensile steel frame, ergonomic tiller handle controls, and durable polyurethane load rollers built for smooth travel across indoor floors. The CBD20 electric model features an ultra-compact chassis with a tight turning radius of 1230 mm and an efficient lithium battery pack, offering effortless powered driving and lifting. For versatile manual operation without electrical requirements, the CBY30 hand pallet jack delivers robust 3000 kg lifting capacity with fork width options of 550/685 mm and length options of 1150/1220 mm. Every pre-owned unit undergoes rigorous hydraulic seal testing, chassis alignment checks, and electrical system diagnostics prior to shipment.

Unique Product Highlights

High Payload Capacity (2.0t to 3.0t): Easily moves heavy palletized goods, box crates, and raw material totes across warehouse floors.

Ultra-Tight Turning Radius (1230 mm): Compact chassis footprint allows easy maneuverability inside narrow truck trailers, shipping containers, and cramped retail aisles.

Maintenance-Free Lithium Power (CBD20): Fast opportunity charging and zero battery watering maintenance ensure maximum uptime during busy logistics shifts.

Ergonomic Operator Handle: Integrated butterfly drive controls, lift/lower buttons, and safety belly switch reduce operator fatigue and prevent pinch injuries.

Durable Heavy-Steel Frame & Rollers: Reinforced fork construction with high-grade polyurethane wheels prevents floor marking and ensures long-lasting durability.

Product Applications

Dock Loading & Container Unloading: Moving pallets quickly in and out of delivery trucks, container trailers, and freight vans.

Warehouse & Distribution Center Staging: Transferring inventory from receiving bays to rack staging zones or packing stations.

Supermarkets & Retail Stores: Moving bulk stock boxes from backroom storage areas directly to retail display shelves.

Manufacturing Plant Floor Transport: Transporting raw component totes, packaging materials, and finished goods between assembly stations.

Why Choose Used Equipment

Maximum Capital Efficiency: Acquire high-performance electric lithium pallet jack technology at a fraction of the cost of new units.

Low Total Cost of Ownership: Combining low purchase pricing with zero fuel expenses and low maintenance requirements yields an exceptional return on investment.

Strict Quality Verification: Every pre-owned unit undergoes complete hydraulic pressure checks, wheel wear inspection, and battery capacity diagnostics.

Immediate Delivery: Avoid factory lead times with ready-to-ship inventory available for fast global dispatch.
